📍 Tetouan, Maroc

in [LinkedIn](#)  [Portfolio](#)

23-year-old Engineering Student at the National School of Applied Sciences (ENSA) of Tetouan. Originally from Burkina Faso and based in Morocco, I am passionate about Cybersecurity, Electronics, Design, and Front-end Web Development.

TECHNICAL SKILLS

Cybersecurity

Penetration Testing
Security Testing
SOC Services

Embedded Systems & Electronics

FPGA Programming: VHDL, Verilog
Microcontrollers: ESP32, Raspberry Pi, ...
Electronic circuits design

Web and Software Development

Languages: Java, Python, C, JavaScript
Front-end: React js, HTML5, CSS3

EXPERIENCE AND EXTRACURRICULAR ACTIVITIES

Internship Projects – Brainwave Matrix

2025

- Phishing URL Scanner: Developed a tool in Python (Flask, Streamlit, Scikit-learn) to analyze and classify URLs in real-time to detect phishing attempts.
- Password Strength Checker: Created an application (Python, Streamlit) evaluating password strength with visual feedback and improvement suggestions.

Academic Project – ShadowFactory: Red Team vs Blue Team

2026

- Deployed a full SOC stack (Wazuh, TheHive 5, Shuffle SOAR) on Oracle Cloud to monitor a multi-VM IT and OT infrastructure simulating an industrial plant.
- Created 15 custom detection rules covering 5 attack phases (network scanning, SQL injection, AD lateral movement, OT pivoting, and Modbus PLC manipulation).
- Implemented an automated response workflow (SOAR): detection → IP blocking via iptables → incident case creation in TheHive.

Academic Project – AI-Driven Solar Tracker System

2025

- Designed an embedded system (ESP32, Arduino) to optimize solar panel orientation using AI.
- Developed a mobile application (Flutter/Dart) and a cloud backend (Firebase) for data monitoring and prediction.

Academic Project – Travel Agency Management (Java)

2024

- Developed a complete desktop application (JavaFX, CSS) for managing clients, itineraries, reservations, and payments, connected to a MySQL database (JDBC).

General Secretary – Ensate International Students CLUB

2026 – Present

- Manage administrative operations, communication, and logistics for major events within the club with 50+ members.

Exchange Participant Manager – AIESEC in Tangier

2025

- Guided participants through international corporate experiences. Managed applications and coordinated international exchanges.

EDUCATION

Engineering Cycle – Cybersecurity and Embedded Systems

2024 – Present

- National School of Applied Sciences (ENSA) of Tetouan

Preparatory Cycle for Engineering Studies

2022 - 2024

- National School of Applied Sciences (ENSA) of Tetouan

ADDITIONAL INFORMATION

- **Languages:** French (Native), English (Advanced), Spanish (Elementary)
- **Certifications:** Certified in Cybersecurity – ISC2  Ethical Hacking, Cybersecurity – Cisco, Alison
HTML5-CSS3-JavaScript – Alison Artificial Intelligence – Force-n Senegal
