Final-year engineering student at ENSA Tétouan and **QA & Application Security Engineer at EBHI (L3M Holding group)**, I combine application security and quality assurance (authorised audit, automated testing, CI/CD), **defensive and OT/ICS cybersecurity** (SOC, SIEM/SOAR, Modbus/PLC) and embedded electronics. I am seeking a **final-year internship (Feb–Aug 2027)** in cybersecurity, with a view to long-term hiring.

SKILLS

Application Security & Pentest

Authorised application audit, OWASP, Burp Suite, Kali Linux, Metasploit

QA & Automation

Playwright, functional / API / E2E testing, test plans, GitLab CI/CD, SQL

SOC / Blue Team

Wazuh (SIEM), TheHive 5, Shuffle SOAR, detection rules, incident handling

OT / ICS Security

SCADA & PLC, Modbus protocol, IT/OT segmentation & monitoring

IDS / IPS & Cloud

Suricata, VNet / NSG, Microsoft Azure, Oracle Cloud (OCI)

Embedded Systems

FPGA (VHDL, Verilog), ESP32, Arduino, Raspberry Pi, MQTT

Development

Python, JavaScript, Next.js / React, Supabase (PostgreSQL), C, Java

Networks & Systems

TCP/IP, firewall, iptables, Linux, Windows

CERTIFICATIONS

 ISC² — **Certified in Cybersecurity (CC)**

Microsoft Certified — **Cybersecurity Business Professional** (2026)

Cisco — **Ethical Hacker**

Force-N — **Junior Cybersecurity Analyst**

Alison — **Diploma in Ethical Hacking**

LANGUAGES

French — native

English — advanced

Spanish — basics

COMMUNITY & LEADERSHIP

General Secretary, **Ensate Int'l Students Club** (50+ members)

Deputy General Secretary, **AEBM** Tétouan

PROFESSIONAL EXPERIENCE

QA & Application Security Engineer • EBHI

Sep. 2026 – Present

L3M Holding group • QA internship (Jun.–Sep. 2026), then hired • La Bonne Allure

- **Authorised application security audit:** vulnerabilities identified, report and reproduction procedure delivered to the team.
- Automation: **18 Playwright scenarios** in a daily GitLab CI pipeline (JUnit reports, Slack alerts, dashboard).
- **20+ test reports** (functional, regression, API, mobile) and SQL root-cause analyses, notably on payment flows.
- **Playwright / Cypress / Selenium study** and QA roadmap approved by management; QA follow-up of 9 other group websites.

Lead Developer (volunteer) • LSNO Amicale

Jul. 2026 – Present

Alumni network of the Lycée Scientifique National de Ouagadougou, in production (220+ members, 18 countries): Next.js, Supabase, two-factor authentication. Designed and led, developed with AI assistance.

Internship — Cybersecurity & Machine Learning • Brainwave Matrix

Apr.–May 2025

Phishing URL scanner (Python, Flask, Scikit-learn) and a password strength checker following OWASP standards.

EP Manager (OGX–OGT) • AIESEC Tangier

Feb.–Jul. 2025

Coordinated international internship programmes for young talents.

FLAGSHIP PROJECT — INDUSTRIAL IT/OT SECURITY

ShadowFactory — SOC Red Team vs Blue Team on IT/OT infrastructure

2026

R&D • OT/ICS

- Team project where I built the SOC side: deployed a **full SOC** (Wazuh, TheHive 5, Shuffle SOAR) on Oracle Cloud monitoring a multi-VM **IT and OT** environment simulating an industrial plant.
- Built **15 custom detection rules** across 5 attack phases: network scanning, SQL injection, AD lateral movement, **OT pivoting** and **PLC manipulation via Modbus**.
- Implemented an **automated response workflow (SOAR)**: detection → IP blocking via iptables → incident case creation in TheHive.

COMPETITIONS & TECHNICAL PROJECTS

MACC — Morocco Academia Cyber Competition — first national student cyber competition (DGSSI, 3,000+ participants): CTF, Cyber Drill and Capture-The-Evidence challenges, as part of an ENSA Tétouan team. (2026)

IDS/IPS Cloud on Azure — Suricata 8.0.4, VNet segmentation, NSG rules, 50,000+ active signatures + 4 custom detection rules. (2026)

EDUCATION

Engineering Cycle — Cybersecurity & Embedded Systems •

2024–present

ENSA Tétouan

IT/OT security, embedded systems, industrial networks, offensive/defensive security.

Preparatory Cycle for Engineering Studies • ENSA Tétouan

2022–2024

Baccalaureate (C) • Lycée Scientifique National, Ouagadougou

2019–2022
